

NEW

Getting Started with Chronic Conditions

COURSE DESCRIPTION

Our Getting Started short courses are delivered as a single 2.5-hour individual remote training session with one of our experienced CDM Plus Trainers. Our sessions will use your current clinical software, including Best Practice, Medical Director, Communicare, and Zedmed to increase confidence in common Chronic Condition management in primary care.

Getting Started with Chronic Conditions is suitable for Nurses, Aboriginal Health Workers and Practitioners, Nurse Practitioners, and GPs looking to improve Chronic Disease Management service delivery.

WHAT WE WILL COVER

- Prevention, Detection, and Management of chronic conditions such as Asthma/COPD, Diabetes, Cancer, Osteoporosis, Cardiovascular Disease and Chronic Kidney Disease
- MBS Item numbers for common detection and management activities
- Clinical Guidelines for primary care
- Case Studies
